Specializing in the production of personalized and breath-taking wallpapers, Studijo Wallart stands as a Croatian design powerhouse. Leveraging top-notch materials and cutting-edge technology, Studijo imbues each wallpaper with authenticity and timeless art. These personalized masterpieces adorn homes worldwide, meticulously crafted and hand-painted. Notably, Studijo Wallart introduced waterproof wallpapers among the first in Southeast Europe. In 2022, they consolidated their entire production process under one roof and launched the first Croatian wallpaper factory.

The brilliance of Studijo's wallpapers has garnered global acclaim, earning prestigious design awards. Three years in a row, Studijo Wallart, led by the accomplished artist Josipa Maras, has captured the global spotlight at the Archiproducts Design Awards in Milan. The latest triumph, the "Grain Fields" wallpaper, reaffirmed the dominance of Studijo Wallart in the international design industry. In addition, the excellence of this wallpaper was also confirmed by the German Design Award 2024. These accolades underscore the brand's commitment to excellence and innovation in the field of design, solidifying Studijo Wallart as an inspirational oasis in the global design landscape.

STUDIO BOUTIQUE FACTORY

Production

Studijo wallpapers are completely designed and produced in Croatia. They are made on high-quality materials with GREENGUARD Gold certified printing technology, which meets strict limits of chemical emissions and allows application for indoor use. Products that have achieved GREENGUARD Certification are scientifically proven to meet some of the world's most rigorous third-party chemical emissions standards, helping to reduce indoor air pollution and the risk of chemical exposure. Studijo wallpapers are available in 2 different versions / materials - when placing an order, the client chooses the design and the material.

DeluxWall - *Dry areas*

DeluxWall wallpaper is made in 50 cm wide rolls that are placed next to each other. It is produced on vinyl material with linen texture. The structured wallpaper gives a special feeling of warmth and rich texture. Its fine texture creates sharp images and provides opulent and rich tonal qualities to enhance the space to perfection. The linen texture brings style and grace to any interior and it's an elegant choice great for large public spaces that require a sophisticated look and feel. It is also used as traditional and modern wall coverings in houses, business premises, catering facilities and hotels.

HydraWall - *Wet areas*

HydraWall wallpaper is made in 95 cm wide rolls that are placed side by side. It's produced on fiberglass and it is resistant to changes of moisture and temperature. It guarantees resistance to liquid penetration and high resistance to mechanical wear, wiping and abrasion on the surface and cleaning agents. It is intended for installation in residential and business premises; they are suitable for showers, toilets, wellness areas and kitchen areas. In order to install waterproof wallpaper, it is necessary to prepare a surface which must be flat and smooth. With proper preparation it is possible to install them on existing ceramic tiles.

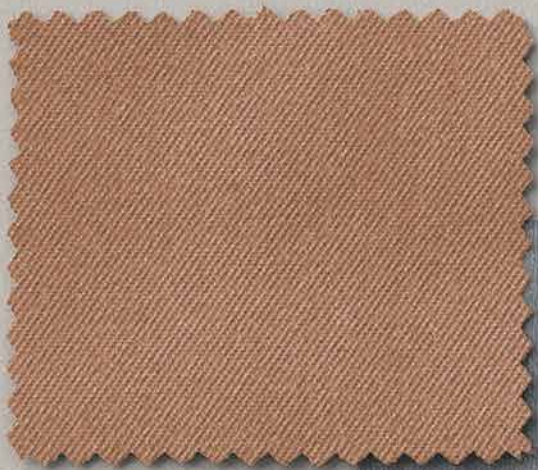

Fully customized product

Studio wallpaper are completely adapted to the interior and in accordance with the wishes of the clients.

With a diverse assortment and the adaptability of each design, the wallpapers will fit perfectly into any space, complementing it and building its character - making it exactly according to the client's wishes. In order for the entire interior to be harmonious and visually connected, Studio wallpapers can be tonally adjusted according to RAL or any other tone chart.

During production, all the visual elements that create the wallpaper are arranged within the given dimensions so that, independently of them, they form an aesthetically harmonious and effective unity.

The color can be adjusted to all Studijo wallpapers, regardless of the wallpaper collection and production material.

Whether it is a basic or designer collection; whether it is produced on DeluxWall or HydraWall material - each wallpaper visually adapts to the rest of the interior.
